Famous for Furs Since 1873

Shayne's 50th Anniversary AUGUST FUR SALE!

A glorious opportunity to buy correct Fall and Winter Fur Coats at the lowest prices possible for Furs of recognized quality!

This sale is a fitting celebration for this important occasion at Shayne's! The many generations of Chicago's women folk who have benefitted by these annual events in the past ... would immediately accept this, as Shayne's greatest, from the viewpoint of the wonderful Style Exposition ... and the attractiveness of the pricings!

> It is practical economy to select Furs here NOW ... not only for their price appeal . . . but to insure full season's wear-and to perience that happy sensation of being first with the latest!

Give thanks for the customer who kicks

A complaint is the result of a mistake or a misun-

When your customer kicks, either you have lapsed in your service to him or he has misunderstood the limits or the value of your service.

Every kick you get that is due to your failings contains the germ of an improvement in your product or service. Not every customer complains. The man who kicks merely expresses in vigorous, tangible form the thought that may be in the minds of dozens, or hundreds, of cus-

The kicker helps you find out what other people think is the matter with your business.

If you have a mailing list to which you do direct advertising, you are in a position to coin money out of complaints. Make the complaints you receive the basis for improvement of product or service. Then keep customers and prospects acquainted with these improvements in your product or methods through direct mail.

Thus good printing intelligently and persistently used can make even complaints the basis of better relations between you and your public. Printing helps your customers understand you; and the better the understanding, the fewer the complaints.

Remember this about printing: Firms do not grow big and then begin to use printing. They begin to use printing and then grow great.

Opening Today - New Section Presenting

O the many women who have found their talent in homedressmaking best complemented by Pictorial Review Patterns-this announcement is of keen interest.

A special section, very conveniently arranged, is devoted to these celebrated Pictorial Review Patterns which contain such unusual advantages.

The "Patented Guide" Furnished with Each Pattern Lessens Greatly the Possibility of Error And Saves Much in Material

Fine care and skill have gone into the production of these patterns and the selection of the fashions they sponsor.

A special visit to this section now, at its opening-and with a new fashion season just aheadwill prove of exceptional interest.

A Special Representative Thoroughly Versed in the Use of Pictorial Review Patterns Will Be Present at This Time.

Board Alone Can Make Complaints.

1800 of the Finer Quality English Broadcloth Shirts

White Tan 2.85 Gray Blue

Collar Attached Style, Plain Neckband Style or With Separate Collar to Match

We secured another lot of these very fine shirts and offer them at the same low price of \$2.85. The cloth is of the same fine text re and lusteous finish and the tailoring of the same high character as in the last let, ensuring you of Mandel Brothers' quality at a moderate price.

The English broadcloth in these shirts has a bright, silky finish, but it will wear better than any silk you can get. Every shirt is cut in generous propertions. Sizes 14 to 17. On sale today.

Men's Very Fine Athletic Union Suits, 1.35

The well known "Regatta" brand-noted for comfortable fitting and next tailoring. Materials are self-striped madras and checked, harred and figured cloths of superior qualities. These union suits are in the popular leg opening style. You are sure to like them.

Leschin authorizes Brown Sor Autumn Luss

Do you know-

that the finest furs come from the farthest north and the wildest regions? That the darkest, softest pelts come from a country that is wild and wooded, where the sun sel-dom strikes through, where the water is fresh and cold and clear?

Leschin furs are made from just that grade of peltry, created by the master designers of Paris and New York. Lines are long and straight, with novel flare effects either real or simulated, shoulders are trim and add a slender look seldom heretofore achieved in fur garments. Sleeves have an entirely new way of achieving becoming softness, bands of the fur set close on silk founds-

This Nineteen Twenty-Three Collection is particularly notable for its interesting variety of richly beautiful fur garments, one-of-a-kind, that proudly bear the Leschin label.

urs August and the August Sale of Furs when prices are the lowest of the entire year and the first choice of pelts is available. Then, too, the better workmanship,there's more time to give particular attention to individual garments than later on in the season.

> Leschin authorizes brown for Autumn Jurs-every shade of brown in mink, sable, caracul, sable dyed squirrel, summer ermine, kolinsky,—so becoming to all complexions, accentuating and defining beauty that is the special prerogative of lovely woman.

All furs purchased in August will be stored and insured without extra charge until delivery; all charge accounts entered for date of delivery; a deposit will hold garment until delivery.

FIRST AID FOR RESORTERS.

NE of the important industries in Michigan is the resort husiness. While it does not produce as much revenue as the automobile business, it is a large direct revenue producer, and it contributes indirectly to the success of the automobile business, as well as many others. Just now it is a summer business exclusively. A few years from now, when the winter vacation and winter play are being used as part of the bettery rams to batter down the up to now unconquerable pneumonal efficient. They weigh 19% and 21% pounds and have eight teeth each."

They weigh 19% and 21% pounds and have eight teeth each."

monia clindel, then the resort business will have two measons a year at least. The Elichigan people are showing themselves alive to the need of protecting the resort business. Health Commissioner Olin devotes considerable of his thought to the subject. We read in his bulletin where he advises all resort places to pasteurize the milk. He tells them how to guarantee the safety of their water and how to protect themselves against mosquitoes.

Since the upper part of Michigan is a hay fever resort, but not a perfect one, we find the people of that section awakening to the need of making their good section a better one. The president of the Traverse City Woman's cittle their city safer as a hay fever resort.

In that section, very much the most important cause of antunnal hey sever is the ragwest. They are provided with weed ordinances, but community cooperation is meeded. They began by teaching the children about ragwest in the public schools. Each child was taught how to recognise regwest and the harm that it did.

Thow to keep Well, ***

YOU GAN PLAY GOLF.

Mrs. J. R. D. writes:

1. I am two months pregnant. I am a lover of golf. I feel physically fit. Would there be any danger of injuring the child while playing?

2. If not, how much will it be safe to play? Auptor.

U. S. and C. C. writes: "We are two buttermilk habies and we have been drinking one plat each day for the last week.

in June they had their first raywood drive. The children are such as the complexion. Is this trust the complexion. In the first first raywood drive. The August Sales Are a Part of Our Service

UR August Sales bring into prominence this Store's conspicuous ability to effect important economies.

Sales with us are no mere detail of merchandising. Rather they are occasions long planned and carefully provided for, as part of our regular ousiness. Our vast organization buys and prepares for our sales-events permanent phases of our service to customers.

Hence this Store helps promote thrift and economy as they affect the daily living expenses, in both apparel and home furnishings.

The month of August is also timely for the purchase of young people's apparel and accessories for the coming school year.

New Style Notes As Portrayed By Millinery

THE more extreme the simis the rule of the new Millinery. Felt, velvet, duveryn, and hat-ters plush are the sought-after fabrics, and the shapes vary from petite styles made chic with bows to wide-brimmed models trimmed ever so simply with feather or band.

The newest styles, colors and modes of trimmings are now displayed.

Fifth Flow, North and Middle, State

For Men, Women and Children Begins Today TODAY inaugurates the 30th Annual August Sale of Shoes. With each year of

Our August Sale of

its growth this Sale has become more important and more advantageous to the public. Literally thousands of men, women and children await it to supply their Shoe needs for months ahead.

Every Pair of Shoes Reduced in Price

Each year this great Sale makes new friends for our Shoe Sections and many are introduced in this way to one of the largest stocks of Shoes in the world. Substantial reductions representing important savings to everybody have been placed on our entire stock, from the most exclusive Evening Slippers, Walking and Sports Shoes to Shoes of special construction like Field Arch Preservers and Field Anatomiks. There are no job lots purchased for this event and no specials picked for clearance—our regular stocks are at your disposal at remarkable savings.

August Sale of FURNITURE

An Immense Collection at Low Prices THIS is an event looked forward to eagerly each year by hundreds of home owners who desire Furniture of quality in design and construction, but who wish also to decrease their household budget.

Carefully planned as a part of the regular Furniture business, this Sale has each year new and important advantages. Although it has always included an immens collection on both the Eighth and Fifth Floors, the pieces this year have further

With a collection of such large proportions to select from it is very easy to find just the suite or single piece you want for the bedrooms, the living-room, the sun-parlor, and the dining-room. During the entire month you will find it complete and comprehensive, for new pieces are constantly arriving and will be marked at sale prices. All are examples of the best of modern cabinetmaking—

pieces of simple design, constructed and finished by expert craftsmen.

Since the stock for this sale was purchased before the recent advances in the market prices of Furniture and since we have made striking reductions in prices here are values which are not easily duplicated.

August Sale of Furs

Offers The Largest Selection And The Lowest Prices of The Year

UCH is the tradition of Marshall Field & Companythat every year during the month of August this remark-ble Sale of Furs takes place. Every piece of Fur in our ections is subject to the special prices prevailing throughout the month of August. The prices are lower than at any other ne, and the benefit is great enough to make it vastly worth the while of anyone who is contemplating the purchase of

Furs. Furthermore, the selection, after months of careful, skillful planning, is larger than at any other period of the year.

Remember, too, that in buying now, the question of your winter costume is settled; that when you take advantage of this Sale, you are fully prepared against the cold weather, and that the garment finally chosen after a leisurely, unhurried selection is the one which gives the greatest satisfaction. FUR SECTIONS, Sixth Floor, North, Wabath

MONUMENT CHAS. G. BLAKE GR

ROOKHART HAS DODGED FACTS

rands Senator as the Farmers' Enemy.

Das Moines, Ia., July 31.—(By the sociated Press.)—Declaring that maker Smith W. Brookhart of Iowal paver been known to exhibit suftent "sustained exertion" to get at in any economic problem he had mpted to discuss, E. T. Mereditis, ner secretary of agriculture, inted out in a statement to the Assated Press received here today. Bemidil, Minn., that the grain mer will receive \$500,000,000 more his crop in 1923 than he did in 12 in spite of the alump in the price wheat.

There is a conspiracy among cer-

in factions," declared Mr. Meredith, in factions," declared Mr. Meredith, in misrepresent and discourage the time. Just what lies back of this senicious scheme remains to be seen, it one of the big purposes is to make ditical capital out of this deceit which is be used to the selfish advantage of the talting part in it.

The Much Time for Soviet.

Two Much Time for Soviet.

"If Senator Brookhart were half as arious to get the true facts before to public concerning the condition the American farmer as he is the souled virtues of the soviet government, a might accept his judgment as compined to good faith," the former cabinet made asid.

If he had asked the facts from the ited States department of agricultive perfore he succumbed to the tempon to take issue with me, he would be found that on July 1, 1922, these of corn per bushel on the farm 62.2 cents, and on the same date year it was 85.5 cents per bushel, farm price of winter wheat mped from 35 cents to 37 cents per hele; oats increased from 37.3 cents 42.5 cents per bushel, and barley in 52.2 to 55.7 cents per bushel, see prices were taken as of July 1 in year and are the farm prices, not reice at market centers from the transportation charges have to

These figures show that the total value of these principal grain crops in July 1, 1922, was \$2,183,682,000, while on July 1 of this year, the total market value at the farm of these same grain crops was \$2,683,506,000, or \$398,524,000 more than last year.

YOU understand — we hope you do—that our semiannual sale is for our benefit as well as yours.

The benefit to us is not so much in the profits we make; the prices, you can see, are pretty low. But we do get activity during the mid-summer dullness; a lot of people who are going to buy furniture this fall are interested in buying now.

The benefit to you is that you do save a good deal of money by buying now instead of later. The quality we offer is Scholle quality, and that doesn't vary with the prices; you can depend on it. The goods we offer in this sale are new goods, not a lot of things "left over;" it's not a clearance sale, as the term is usually employed.

And then, if you don't want what you get or get what you don't want, we take it back and give you the money back; just because you buy at a "sale" isn't a reason why you shouldn't be satisfied.

CARSON PIRIE SCOTT & CO

The Annual August Sale of Furs The New Styles Priced Much Below Usual

This annual sale, firmly established by its years of fine tradition, comes again this August, adding a very marked emphasis to the splendid value-giving which has made

Here is the new in furs peltries of rare beauty developed into fashions highly distinguished—and this season there is a newness, a difference absent from fur styles of many seasons past.

Long Svelte Lines Are Attained by Expert Handling of Furs Caracul, Moleskin, Ermine in Varied Shades, Muskrat, Leopard Accepting Furs Are Used-Sable, Foxes, Kolinsky, Squirrel

Fur, even, "ripples" this season, and is caught at the side by huge ornamental clasps. As in the black caracul coat sketched at the left center. Gunmetal caracul is used in the wrap sketched at the right center; the banding and high standing collar are of fox. The sports coats are smart as they have never been before. Red fox is used with leopard. Muskrat skins are dovetailed diagonally. Ocelet and raccoon are combined. Then coats of Hudson seal (dyed muskrat) are banded with red fox, a very striking and beautiful combination.

The New Fur Coats for Miss Six-to-Sixteen

Opossum takes first place often. It is in the coat at the right. Smart, too, are coats of nutria, raccoon and caracul and muskrat.

For very small girls are clever little coats of squirrel-lock, made in blouse style, with tiny skirts that flare. (Note sketch at the left.)

Announcing the First

August Sale of New Winter Coats

Every coat department for women and for girls is con-cerned in this sale which is inaugurated here today. So that its advantages are practically unlimited. And they are advantages which amount to so much in actual saving that this sale will prove, we believe, the economy event of the season. Assortments have been skillfully assembled. They are as extensive and varied as the new mode itself.

Coats for Women, Misses and Girls Sports Coats and Gray Shop Coats Priced \$45 to \$295

Prices vary according to the style and material. In each insta-however, the price is much lower than, we believe, such coats may be later in the season. And values are remarkable. This is a sale of greatest importance as well as a fashion event.

The Style Tendencies

Ripples and ruffles deftly handled to emphasize slamness. Exquisite embroideries in deep, richly blended colors.

Fur and again fur, bandings, deep collars, revers. The straight-line is preserved, despite godets and insets, often of fur.

Coats Sketched Here

Directly above is a coat of deep velvety Orlana (a new fabric). The collar and cuffs are of black lynxe \$250.

Sketched at the left is a fur is Vjatka squirrel. \$215.

At the right, a misses' coat of real swansdown in beige, banded with leather. \$135.

All Furs and Coats Purchased at These Sales Will Be Kept in Our Storage Vaults Until Wanted Without Extra Charge.

GO DAILY TRIBUNE: WEDNESDAY, AUGUST 1

N accordance with the order of the Illinois Commerce Commission, and accepted by the Company, general gas rates in Chicago have been reduced and special rates created for house heating and industrial use. These new rates are effective as to all bills rendered for meters read on and after August 1st, 1923. They mark an important and progressive step in opening the way for much greater and more varied use of gas, and for making gas do what it is capable of doing to add to the comforts of the home and to promote industrial production.

New Rates for General Use

The following rates are applicable to all gas service including light ing, cooking, water-heating, and the other purposes for which gas is generally used.

Cable Feet of Gas Communed in Any One Month For the first 400 cubic feet For the next 40,000 cubic feet For all over 50,000 cubic feet

Towns (no. 200)

95 cents per 1,000 cubic feet 90 cents per 1,000 cubic feet 85 cents per 1,000 cubic fee

Minimum charge per meter per month, 60 cents.

This is a reduction in the general gas rates of 5 cents per 1,000 cubic feet. It is the second reduction in the gas rates of this Company within less than eighteen months.

An additional charge at the rate of ten cents (10c) per 1,000 cubic feet of gas supplied will be applied when the bill is not paid within ten (10) days after its date. The city of Chicago, Federal, State, County of Municipal governments, hospitals, charitable institutions and railroads have sixty (60) days from the date the bill is rendered for the payment thereof, before such additional charge of ten cents (10c) per 1,000 cubic feet is applied.

These reduced and special rates will enable a larger number of people than ever before to realize quickly and undeniably the economy of gas.

New Rates for Industrial Use

The rates under this classification are available to any consumer who shall apply and enter into a contract for the same.

Output Charge

50 cubic feet 50 cubic feet 50 cubic feet 900 cubic feet For the first 12 cents per cubic foot 4 cents per cubic foot For the next 3 cents per cubic foot 1,000 cubic feet 2 cents per cubic foot

Demand Charge

Cubic Feet of Gas Consumed in Any One Month For the first 1,000,000 cubic feet

For the next 1,000,000 cubic feet

For the next 1,000,000 cubic feet

For the next 1,000,000 cubic feet

For all over 3,000,000 cubic feet

65 cents per 1,000 cubic feet

60 cents per 1,000 cubic feet

Minimum Monthly Charge

The consumer's total payment for any month's service shall not be less than an amount equal to 50% of the highest previous monthly demand charge against him since the beginning of his contract with the Company. This rate is based in part upon the rate of maximum hourly demand of the particular consumer, thus applying to the field of gas rates a principle long adopted in the making of electric rates.

We will be glad to have one of our industrial gas engineers confer with you and give you full information. No charge; it is part of our service.

New Special Rate for House Heating

The special rate under this classification is available for house or space heating and will be applied only to gas consumed for that purpose and not to gas consumed for any other use.

Cubic Feet of Gas Consumed in Any One Month

For the first 400 cubic feet For the next 2,600 cubic feet For all over 3,000 cubic feet

60 cents

95 cents per 1,000 cubic feet 75 cents per 1,000 cubic feet

Minimum charge per meter per year, \$24.00. An additional charge at the rate of ten cents per 1,000 cubic feet of gas supplied will be applied when the bill is not paid within ten days after date.

The special rate enables customers to use gas for house and space heating at a cost comparable with other fuels, all factors considered. The reduction is approximately 25 per cent from the old rates. The new rates will make this service available to many who, although desirous of heating their homes with gas, have felt unable to pay for this service under the rates heretofore in effect. When you heat with gas you eliminate cost of handling and storing coal and disposal of ashes. There's no dust-no dirt-no soot. No money tied up in a fuel pile. And you pay for gas after you use itnot before. We will gladly have one of our house heating engineers call on you and give you full information relative to heating your house, store or factory with gas. Gas heating is no experiment. It is efficient and dependable. Ask us for

GMC Trucks Last Indefinitely

It is impossible to make an accurate estimate of the life of GMC Trucks. To begin with, every wearing part is built oversize to give extra long service. And when a part does finally wear out after years of strenuous use, it can easily be replaced.

Moreover, exclusive features add indefinitely to the life of GMC-removable cylinder walls, extra large brakes, drums, radius rods, easily replaceable bearings and many others.

Numerous other factors likewise add to the usefulness and life of GMC. With reasonable care, they will last indefinitely.

WHAT'S WRONG HERE?

BY A. T. GALLICO. They Held Their Own. is, in the case of the trousers of the litustration, neither. They hold their own. Of course, for a decorative touch a belt is needed, since the trousers are for sport, such as tennis when no coat is worn. The trousers are English in cut, and the band at the waist, which closes with two or three buttons, holds the trousers snugly in place without outside help. A few plaits at the waist give the fullness characteristic of the English trousers.

The specific trousers illustrated are of an extremely light weight worsted, finely striped in white and black. They could be worn in place of the regular white flannels, and would go well with a gray sack or sport coat, with a bright tie and a white shirt.

The black and white combination is one that is always successful and always in style, while colors come and go. I saw it interestingly applied recently to a sport costume. The outfit consisted of a gray tweed knicker suit

consisted of a gray tweed knicker suit as a foundation, a white sport shirt, black and white check four in hand, black golf hose, and sport shoes of white elk with black saddles.

Compare the above outfit, conforming to an attractive scheme, with this miscellaneous costume, which locked as though it had been thrown together upon two minutes notice, it was also a sport costume, and consisted of a gray tweed sport coat, tan gabardine knickers, green golf stockings, blue tie, and black shoes.

Try this with your light gray suit, if you have one. Light blue shirt, green and blue striped tie, and hat band of plain blue or blue and gray.

Mrs. William H. Rankin, wife of the

Mercy hospital. Dr. John F. Golden reported the operation successful and his patient was said to be resting comfortably last night. The Rankins and their five children resided in Evanston until two years ago, when they moved to Forest Hills Gardens, Long Island.

Buying Well-Protected Bonds Insures Satisfaction

It is very satisfying to know that your money is invested in sound bonds whose value is based on actual assets and established earnings. The worth of such securities is permanent and fundamental. Payment of both principal and interest can be depended upon when due—unaffected by temporary business or market conditions.

The following issues, basicly sound, offer enduring satisfaction in their purchase. They also offer an interest return which is well above the average.

Louisville Gas & Elec. Co. 1st & Ref. 5% Bonds of 1952 Northern States Power Co. 6% Gold Notes of 1926 ois Power & Light 1st & Ref. 6% Bonds of 1953 Chicago North Shore & Milwaukee R. MOODYS INVESTORS SERVICE

\$20,000,000 Government of Switzerland

THREE-YEAR 5% EXTERNAL LOAN GOLD NOTES

To be dated August 1, 1923.

To Mature August 1; 1926.

THE NATIONAL CITY COMPANY

HARRIS TRUST AND SAVINGS BANK

Interest to be payable February 1 and August 1. Coupon Notes in Denomination of \$1,000 Redeemable, as a whole but not in part, at 100% and accrued interest, at the option of the Government, on August 1, 1925, or February 1, 1926, on three months' notice.

Both principal and interest of the notes will be payable in United States gold coin of the present standard of weight and fineness, in New York City, at the office of I. P. Morgan & Co., without deduction for any tax or taxes now, or at any time hereafter, imposed by the Government of Switzerland, or by any taxing authority thereof or therein.

The following statement has been authorized by the Federal Financial Department of the Swiss Government:

These Notes are to be direct external obligations of the Swiss Confederation (Government of Switzerland). The total debt of the government of Switzerland at June 30, 1923, was approximately \$473,000,000 of which about \$463,000,000 represents indebtedness incurred in connection with the purchase and improvement of the Federal Railways. For many years preceding the war, the operation of the Federal Railways had always resulted in a surplus over interest charges; it is expected that the railway accounts for the current year will show a surplus, if the favorable monthly results so far reported are continued.

The Federal Railways, which have a total length of about 1,880 miles or more than one-half of the total railway mileage in Switzerland, are gradually being electrified. As of June 30, 1923, about 268 miles were under electric operation. Switzerland has large resources of waterpower, estimated at 2,700,000 horsepower, the increased utilization of which should result in substantial reduction of the quantity of coal which now has to be

The general debt of the Government of Switzerland (exclusive of the railway debt) amounted to about \$410,000,000 on June 30, 1923, of the two loans previously issued in the United States, aggregating \$55,000,000 and constituting (with the present issue of Notes) the entire external debt of the Swiss Government, about \$15,000,000 has been retired by the Government. As a partial offset to its general debt the Government owns the telephone and telegraph systems and has other property, securities and special funds, all aggregating approximately \$170,000,000 in value.

During 1922 and the first half of 1923, the Government of Switzerland issued internal loans aggregating 750,000,000 france for purposes of cansolidating floating debt and providing funds for railway electrification. These loans have been sold at prices to yield from 5.50% to 4.30%. The latest issue, made in April, 1923, was placed on a basis of approximately 4.50%. Swiss Government obligations have for many years, been included among those enjoying the highest credit ranking.

The currency system of Switzerland is in a strong position. The amount of outstanding banknotes of the National Bank of Switzerland, which has the sole power of note issue, has been reduced during the past two and a half years and on June 30, 1923, the bank held a metallic reserve in gold and silver equivalent to about 70% of its note circulation. As a result of its sound manetary condition, Switzerland has been able to maintain a favorable exchange rate as compared with other European currencies.

All figures stated in dollars in the above statement has been converted from Swiss francs at par of exchange

THE ABOVE NOTES ARE OFFERED FOR SUBSCRIPTION, SUBJECT TO ISSUE AS PLANNED AND TO THE APPROVAL OF COUNSEL, AT 97.29% AND ACCRUED INTEREST, TO YIELD 6%.

Subscription books will be opened at the office of J. P. Morgan & Co., at 10 o'clock, a. m., Wednessiay, August 1, 1923. The right is reserved to reject any and all applications, and also, in any case, to award a smaller amount than applied for. The amount due on allotments will be payable on or about August 14, 1923, at the office of J. P. Morgan & Co., in New York funds against delivery of temporary Notes or Trust Receipts, exchangeable for definitive Notes when prepared and received.

THE ROOKERY CHICAGO

The Elements of an Ideal Investment

THE pure investment is a promise to pay; it is a loan for a definite I period. The principal must be returned at the end of this period and the interest must be met regularly. Investment bonds are securities of this type and in addition, when properly selected, are a

staple commodity with a high standard of value, and are therefore readily

marketable. All of these elements are carefully considered by Federal Securities Corporation before purchasing bonds offered to its customers.

The bonds listed below, in our opinion, measure up to these requirements.

\$5,500,000 Park-Lexington Corporation

First Mortgage Leasehold 61/2% Sinking Fund Gold Bonds

The following is from a letter addressed to us by Mr. C. B. Jaqua, President of the Park-Lexington Corporation, and Vice-President of the Anahma Realty Corporation:

"The bonds will be secured by a closed first mortgage lien on New York City leasehold with buildings thereon appraised at \$10,598,488 by Mesars. Douglas L. Elliman & Co. The properties consist of the twelve-story office and exhibition building known as the Grand Central Palace, and the adjoining connected twenty-story Parks Lexington office building, recently completed, (having together an aggregate capacity of 14,400,000 cubic feet), as well as the leasehold rights in the land extending from 46th Street to 47th Street and from Park Avenue to Lexington Avenue, upon which the above buildings are situated. No mortgage or lien can be created on the land or buildings ranking prior to or ratably with this mortgage. The lease, containing favorable and advantageous terms, extends with renewal privileges, to 1964, and may be further extended for twenty-one years unless the owner of the land buys the buildings.

The main entrance to the properties is on Park Avenue within 400 feet of the Grand Central Terminal, with a spacious arcade connecting the two buildings and running through on the ground floor from Park Avenue to Lexington Avenue. Located in the Grand Central zone, in the uptown business, financial, shopping and hotel districts, and accessible by subway, elevated and surface lines, these properties occupy a commanding position among high class office buildings in the city. The independent experts who have appraised the properties make the following statement in their report: 'Both buildings are well constructed and well located in a district where we believe statement in their report: 'Both buildings are well constructed and well located in a district where we believe values are more assured than in almost any other section of New York City and in which we believe values will be maintained practically indefinitely.'

The equity beyond the par value of these bonds will aggregate \$4,200,000, represented by junior obligations aggregating \$3,200,000 which are part of the purchase price for the above properties, and by \$1,000,000 common stock equity which is to be paid in cash by the Anahma Realty Corporation. Other buildings in New York City owned, or controlled through entire stock ownership, by the Anahma Realty Corporation are the Heckscher Building, National City Building (uptown), 50 East 42d Street, 244 Madison Avenue, Equitable Trust Company Building (uptown), 43 City Building (uptown), 50 Concourse Building (leasehold), Knox Building (leasehold) and the Marlin-Exchange Place Building, Vanderbilt Concourse Building (leasehold), Knox Building (leasehold) and the Marlin-Rockwell Building (leasehold). The aggregate assessed valuations of these properties is nearly \$25,000,000, and they constitute the most important holding of modern office buildings in New York City under a single control, they constitute the most important holding of modern office buildings in New York City under a single control,

Present earnings available for interest and sinking fund, on the basis of existing leases and applications for exhibition space, are at the rate of more than twice the maximum interest charge on this issue of bonds, notwithstanding that due to the recent date of completion less than half of the space in the new office building is leased.

Annual net income of \$1,150,000, or more than 3 times the maximum annual interest charge, and over 2½ times annual interest and sinking fund charges, on this issue, is estimated as available if only 90% of the aggregate gross rental income is realized. This estimate, confirmed by the report of independent accountants, is based upon the experience of existing leases and upon present operating expenses including taxes and ground rental.

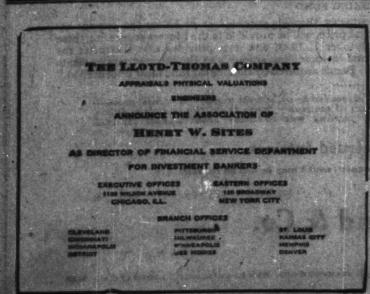

A sinking fund, calculated to retire the entire issue by maturity through purchase at or below the current redemption price, or if not so obtainable, by call by lot at that price, will be provided in the Mortgage securing these bonds. The first payment is to be made on or before October 1, 1923, and it is provided that thereafter the company will make quarterly payments for the sinking fund in increasing amounts as the interest requirements decrease through the retirement of bonds by the sinking fund. Bonds acquired by the sinking fund must be cancelled."

We offer these bonds for delivery when, as and if issued and received by us, subject to approval of legal processings by counsel. It is expected that delivery in the form of temporary bonds or interim receipts of Dillor. Read & Co. exchangeable for definitive bonds when received will be made about August 15, 1923.

Price 100 and Accrued Interest.

Further information is contained in a circular, which may be had on request.
